## Café Latte Mousse Dessert Premix

Major Australian dairy suppliers have developed a name for themselves in the Asia Pacific region for high quality milk and dairy dessert products. **Gourmet Tree** is a part of this growing tradition and has developed a powder mix that only needs adding to room temperature water to make an delicious, restaurant-quality Latte Coffee panna cotta-style mousse dessert, with a light but wonderfully satisfying texture.

Each 500g sachet makes 20-24 x 70g desserts, after following the directions below; however it can be adapted - add fruit, add milk, add cream, use with cakes or trifles – there are many possibilities!

Each box contains 12 x 500g premix = 6kgs

Just mix our powder base with water with a stand mixer or hand blender to get these benefits. Add 500g **Gourmet Tree Café Latte Dessert Mix** to 1 litre water (at room temperature) and mix for 30 seconds. The dessert mix stays liquid for an hour and can be poured rapidly into cups or tubs for sale later; it will become firm after cooling in the fridge. You can use your own ingredients such as chocolate, sauces or biscuit/cake, and it can also be **layered** with other **Gourmet Tree** dessert mixes to create your own signature range. It is stable in the fridge for 7 days.
