Mango Mousse Dessert Mix

Major Australian dairy suppliers have developed a name for themselves in the Asia Pacific region for high quality milk and dairy dessert products. **Gourmet Tree** is a part of this growing tradition and has developed a powder mix that only needs adding to room temperature water to make an amazing, restaurant-quality Mango panna cotta-style dessert, with a light but satisfying texture.

Each 500g sachet makes 20-24 x 70g desserts after following the directions below; however this can be adapted - add fruit, add milk, add yogurt, use with cakes or trifles – there are many possibilities!

Just mix our powder base with water with a stand mixer or hand blender to get these benefits. Add 500g **Gourmet Tree Mango Mousse Dessert Mix** to 1 litre water (at room temperature) and mix for 30 seconds. The dessert mix stays liquid for an hour so can be poured rapidly into cups or tubs for sale later; it will become firm after cooling in the fridge. It can also be **layered** with our other **Gourmet Tree** dessert mix products, or with your own ingredients (such as yoghurt or fruit), so you can create your own signature dessert range. It is stable in the fridge for 7 days.

Nutritional Information

	125g of Dessert	100g of Powder
Energy	759kJ (182Cal)	1840kJ(440Cal)
