## INFORMATION SHEET

### Yakult-Style Probiotic Dairy Drink

***Probiotic drink for Food and Beverage sector, for offering beverages that specifically improve health and immunity.***

**DIRECTIONS:** Add 750g sachet to 2.25 litres water in a large jug. Mix with a long wire whisk for 1 minute, leave for 10 minutes then mix again for 30 seconds to make up this Yoghurt drink.

Cover the jug and keep this in the fridge for up to 5 days.

To sell pour around 150mls over ice cubes in large serving cup, juice, fruit or complementary health ingredients can also be added.

Consumers have accepted that drinking of Probiotic Milk drinks daily are a positive step for their health – it is now even more important to maintain health and immunity due to Covid-19. This product now allows Food and Beverage stores to offer this kind of Yakult-style product in innovative and value-added ways: With ice, with juice, with fruit or with complementary health ingredients are just examples. When diluted this Australian Milk product contains 10 billion probiotic bacteria per 250mls drink serving (*L. casei*).
