INFORMATION SHEET

'Yomaxx' – Frozen Yogurt

This powder mix makes an excellent frozen yoghurt product when used according to the following instructions.

DIRECTIONS :

Place 3.5 litres of pure water in a mix bucket. Add 1.5kg sachet Yogurt Soft Serve powder. Mix with a long wire whisk for 60 seconds, until mix is completely dissolved – allow 5 minutes before adding to machine reservoir.

AUSTRALIA YOGURT :

Consumers have accepted that consumption of Yogurt on a daily basis is a positive step for their health. Yogurt is a vibrant sector of the retail food market and subject to constant innovation and improvements. It is particularly noted for quick adoption of novel ingredients that benefit the consumer's health. Our product is unique in that it carries many of these benefits seen in supermarket products to the foodservice business - in a new and exciting way.

When used together with fresh fruit, or fruit syrups the results are delicious and also noticeably more healthy and upmarket than standard soft serve with syrup toppings. Also there are option to include high levels of probiotic bacteria within our powder; though this adds cost – it is a powerful marketing option.

TYPICAL MICROBIOLOGICAL ANALYSIS

APC	< 5000	/ g
Coliforms	< 3	/ g
E coli	Negative	/ g
Yeasts & Moulds	< 100	/ g
Salmonella	Negative	/ 375 g

INGREDIENTS DECLARATION:

Sugar, Milk Solids, Maltodextrin, Vegetable Fat, Food Acid (330), Vegetable gums (466,415,407), Flavourings, Emulsifiers (340i, 471)
